

**too late - mike pellegrino - 3/9/2003**

i was wrong to think i could -- speak of these things to you  
you were on the edge of it all, anyway

if i had a way, i would go back  
and fall for you again , all over again

it was wrong, the way i left you there  
when you left me here only trying  
to do what is right

and now i know what it's all for  
and now i know what it means to be great  
and now i find the key to the door  
but i also know that i'm much too late -- too late

too late to be the one for me too late to be mine  
too late to be the way it should be too late to find
